

## DURACEM WOOD FILLER FOR INTERIOR WOODWORK

补木泥

**DURACEM WOODFILLER** is a ready-to-use water based fast drying interior wood filler. It is ideal for filling cracks, nail holes and splits on wood surfaces. It can be sand down to give a mirror smooth finish. It can also be painted, stained or varnished without priming.

### DIRECTION FOR USE

- ▲ Ensure that surfaces to be applied are dry, clean, free from grease or loose adhering material.
- ▲ Apply Duracem Woodfiller in a thin layer to the area to be filled with a filling knife or a scraper.
- ▲ Apply a second coat if necessary.
- ▲ Allow to dry for approximately 30 minutes between applications before sanding and painting.
- ▲ Close container lid tight after use to prevent drying.

**AVAILABLE COLOURS:** Teak and Natural
