

DURACEM WATERPROOFER 防水剂 WATERPROOFING ADMIXTURE

DURACEM WATERPROOFER is a liquid heavy duty integral waterproofing admixture that acts both as a highly efficient plasticizer and waterproofing agent. It is produced specially for the complete and permanent waterproofing of mass and reinforced concrete structures, precast concrete, ready-mixed and other cement mixes. **DURACEM WATERPROOFER** is chloride free, hence it will not cause corrosion to reinforcement steel and stressing wire.

ADVANTAGES

- ▲ Improves water tightness
- ▲ Reduces shrinkage & consequential cracking
- ▲ Improves workability & plasticity of the mix
- ▲ Increase compressive & flexural strength
- ▲ Better compaction, denser concrete & superior finish

DIRECTIONS FOR USE

Mix the required amount of **DURACEM WATERPROOFER** at a rate of 500ml per 50kg of Portland cement to the gauging water prior to its addition to the cement mix.
