

221 DURACEM PLASTER 2 IN 1

二合一
幼砂浆灰泥

DURACEM PLASTER 2 IN 1 is a high quality water resistant cementitious thin plaster specifically formulated for levelling and surface improvement works to concrete and cement-rendered surfaces in a single coat. A hardened plaster can be painted or wall-papered. It is suitable for both interior or exterior application.

PRODUCT SPECIFICATION

Appearance	: Fine White/ Grey Powder
Binder	: Cement
Filler	: Limestone/ Graded silica sand
Additives	: Water soluble polymer to improve consistency, workability, water retention & adhesion
Potlife	: approx. 3 hours
pH	: 12
Density	: • Dry: 1.2kg/ ℓ • Wet: 1.6kg/ ℓ
Coat thickness	: 2 - 3 mm thick per layer of application
Coverage	: 1.5 kg/ m ² / mm thick
Water Consumption	: 8ℓ / 25kg bag
Adhesion to Concrete	: 1.2 MN/ m ²
Max Aggregate Size	: 0.5 mm

ADVANTAGES

- ▲ Mixes & applies easily
- ▲ Consistent finish surface quality
- ▲ High durability
- ▲ Good water resistant
- ▲ Contain anti-fungus properties
- ▲ Fast curing
- ▲ Anti-efflorescence
- ▲ Better coverage
- ▲ Resistant to dirt pick-up
- ▲ Resistant to shrinkage
- ▲ Resistant to surface crack
